Tell Us Your Story

Every day we are working to save lives with blood transfusions. These lives may be a member of your family, a friend or even you. We would like to hear your story of how a blood transfusion made a difference in your life.

Please share your story with us, so that we can share it to inspire others. Did you or someone close to you receive lifesaving blood recently or many years ago? Perhaps you are a frequent blood donor and would like to inspire others with your thoughts on blood donation.

**Blood saved my life.
I mean, I was so sick
that I needed to be
quarantined."**

Meet Mike

Mike is uncomfortable around needles. However, Mike is especially grateful to everyone who can get past this and give blood to save lives. Lives like his. While undergoing cancer treatment, Mike needed a lot of platelets and red blood cells. "When you give, you're not giving just blood you're giving a piece of you. And just knowing that someone is benefiting because of your act - that's sensational."

Give blood 3 times a year!
